

**ATTACHMENT: New Directions in Psychotherapy and Relational Psychoanalysis**  
**Dr. Aysha Begum: Editor-in-chief**

*ATTACHMENT* is a professional clinical journal for psychologists, psychoanalysts, psychotherapists and clinicians published by The Bowlby Centre, formerly The Centre for Attachment-based Psychoanalytic Psychotherapy. We welcome contributions that further attachment-based relational psychotherapy and contemporary psychoanalytic psychotherapy from colleagues of all clinical orientations.

We encourage submissions for the three designated sections of the journal:

1. Clinical papers:  
Advancing the field of attachment-based relational psychotherapy and contemporary psychoanalytic psychotherapy. These clinical papers are reviewed by the editorial team and should aim to have a clear clinical message supported, where appropriate, by theory and relevant referenced literature.
2. Book and creative literature reviews:  
Book review requests should be made to the book reviews editor. The journal team will endeavour to match the book to a reviewer who has expertise in the field. Where this is not possible or achievable in a timely manner, we will consider a suggested named reviewer. This should be someone equally expert in the field and all conflicts of interest must be declared. All other creative literature reviews and shorter pieces should follow the directions for the clinical papers (above).
3. Original and research papers:  
Advancing the field of attachment-based psychological therapies from all clinical disciplines. These papers are formally peer-reviewed. A second blind copy must be provided. And the manuscript and submission email should clearly mark 'for peer review'. See notes below.
